

## Thermowells - WLW10SD - Standard Thermowells

Used in all branches of industry. Depending on the chemical environment and medium, metals are subject to change

### Usage Properties

Process Fluid Temperature · -200/+400°C

### Constructive Properties

Process Connection · Screw Connections

Thermowell Diameter ·

Thermowell inner diameter · Ø10 mm

Case · Stainless Steel AISI-316L

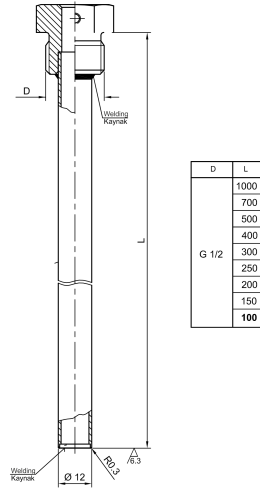

Immersion Length · 100mm · 150mm · 200mm · 250mm · 300mm · 350mm · 400mm · 500mm · 700mm · 1000mm

Max.Pressure · 25 bar @ 500°

Manufactured · Built up

Body Form · Straight
